EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Mickelsen on May 5, 2004.

The application has been amended as follows:

Cancel claims 7-10.

Also amend the status indicators of Claims 14 and 18-20 as follows:

Claim 14 replace "previously added" with "previously presented".

Claims 18-20 replace "amended" with "previously presented".

This change does not affect the claims. It is only done to conform to rules concerning status indicators of the claims.

The following is an examiner's statement of reasons for allowance:

Claims 14, 16, 18-24, 27 and 28 are allowable over the prior art of record because the prior art of record does not teach forming a cobalt alloy having at least 2 atomic% boron by mechanical alloying and a cobalt alloy having a chemically homogeneous alloy composition having microstructural homogeneity with the alloy composition comprising Pt, Co, Cr, and at least 2 atomic % B.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably Application/Control Number: 09/832,181

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney G. McDonald whose telephone number is 571-272-1340. The examiner can normally be reached on M- Th with Every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam X. Nguyen can be reached on 571-272-1342. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
